

DIGITAL FUNDING SOLUTIONS

At United Fundraising we're leading the way with digital fundraising services to provide new funding solutions.

INNOVATIVE TECHNOLOGY

Our ability to support the growing need for national, digital solutions includes:

- **Donation Program**

- Raise more money even faster when you spread the word via text message and email communication.
- Fundraise in as little as one hour!
- Set minimum donations to ensure maximum results

- **Online Product Sales**

- Want to reach a broader audience? Now you can sell both online and with brochure in hand; or simply choose online only.
- No need to handle cash by accepting credit card payments
- All sales tallying managed automatically
- Most products can be student packed and delivered without the need for time to sort or round of volunteers
- ***Some product can be direct shipped to your supporters! No need for delivery!***

- **Accept Credit Card Payments**

- Bookkeepers will love that every transaction is accounted for!

Digital fundraising keeps your fundraiser touchless and can help your program reach a larger audience.

Ask how we can help you raise money all year long too!
